

WHY REPLACE WHEN YOU CAN RESTORE?

Roof restoration costs half as much as total replacement.

The Met-A-Gard system from American WeatherStar is proven to restore & protect metal roofs. It sets the standard for quality and affordability in metal roof restoration. Met-A-Gard+ raises the bar with technologically advanced High-Tensile Acrylic 211 as its main component. The physical properties of HT 211 make it your best choice for color retention on custom colors as well as in extreme climates. Both systems are bright white, ENERGY STAR® rated and backed with StarGard material and system warranties from American WeatherStar.

Fluid-applied roof restoration is half the cost of roof replacement. The advanced cool roof technology is ENERGY STAR® rated to reduce the absorption of heat from the sun, saving you money on interior cooling costs.

BENEFITS

- Coatings are 100% tax deductible the year of installation
- Fast, easy, non-disruptive installation
- Energy-efficient cool roof technology
- Seamless membrane cures & prevents rust
- Backed with long-term, sustainable warranties

MET-A-GARD & MET-A-GARD+ ROOF RESTORATION SYSTEMS WILL RESTORE & PROTECT

- Standard R-panel metal roofs
- Standing-seam metal roofs

TECHNICAL DATA

AWS ACRYLIC 211	
Type:	Solar Reflective Coating
Viscosity:	4,500 ± 500 cps
Tensile strength:	273 ± 20 psi
Elongation:	233 ± 20%
Volume Solids:	58% ± 1%
Color:	White, Tan, Gray & Custom

AWS ACRYLIC 211 HT	
Type:	Solar Reflective Coating
Viscosity:	4,500 cps
Tensile strength:	500 ± 50 psi
Elongation:	600 ± 50%
Volume Solids:	55% ± 2%
Color:	White, Tan, Gray & Custom

SUSTAINABLE WARRANTIES

MET-A-GARD
5 & 10 YEARS

MET-A-GARD +
12, 15 & 20 YEARS
